DYNACORN

CLASSIC BODIES INC.

Replacement Body Shells

Ford Oval and Mustang are registered trademarks owned and licensed by Ford Motor Company. Manufactured by Dynacorn Classic Bodies Inc.

For nine years, Dynacorn Classic Bodies has been offering restoration body shells to the classic muscle car hobby. Starting in 2013, DCB started assembling the Mustang body shells in California. We started with the 67-68 bodies, next will be the 69-70's, Challenger, 65-66 Mustang fastback and convertible and the Bronco. By the end of 2015, almost all our 100% new steel restoration replacement body shells will be assembled in the United States, to the delight of the restoration community.

Stick around and watch us catch fire...we're Dynacorn Classic Bodies and Dynacorn International...the Muscle Car People.
